FURTUNA YIMER

Addis Ababa, Ethiopia • +251970711967 • furtunatilahun@gmail.com

SUMMARY

Passionate Software Engineer and Frontend Developer experienced in designing and developing responsive, high-quality web applications using React.js, Next.js, and Bootstrap. Worked with teams at Kuraz Technologies, E-Tech, and Creative Hub, delivering projects that balance functionality with intuitive design. Adept at UI/UX implementation, debugging, and version control. Dedicated to innovation, problem-solving, and building inclusive technology solutions that make a real-world impact.

WORK EXPERIENCE

Top Tech **Present**

QA Tester

Conducted functional and usability testing for web and mobile applications. Identified, documented, and tracked software bugs to improve product reliability and performance. Collaborated closely with developers to validate fixes and ensure product quality across multiple test environments.

INSA Summer Camp – Afalgugn Project **Jul 2025 - Aug 2025**

Project Designer & Frontend Developer

Designed and developed interactive educational content for the Afalgugn Project, enhancing learning experiences for summer camp participants. Focused on accessibility, usability, and engaging UI/UX design to facilitate interactive learning.

E-Tech S.C. **Jul 2024- Sep 2024**

Web Developer Intern

Collaborated within a development team to build a responsive frontend for an Internship Management System using React.js.

Kuraz Technologies **Jul 2023 - Sep 2023**

UI/UX Designer & Web Developer Intern

Contributed to the design and development of web platforms, including a university website and an educational agency platform. Developed a testimonial module for an e-commerce platform to enhance engagement.
